CAREER SUMMARY

Pharmaceutical research professional, consultant, pharmacist and teacher with hands-on experience with the pharmaceutical product lifecycle from discovery support to post-marketing including preclinical, clinical, medical information and retail pharmacy. Subject Matter Expert (SME) on medical information for KUVAN (sapropterin) for phenylketonuria; NAGLAZYME (galsulfase), VIMIZIM (elosulfase alfa), ALDURAZYME (laronidase), ELAPRASE (idursulfase), VPRIV (velaglucerase alfa) and other enzyme replacement therapies for mucopolysaccharidosis and lysosomal storage disorders; AGRYLIN/XAGRID (anagrelide) for essential thrombocythemia; KYPROLIS (carfilzomib) proteasome inhibitor; INCRELEX (mecasermin) for IGF-1 deficiency; GATTEX (teduglutide) for short bowel syndrome; LIALDA and PENTASA (mesalamine) for ulcerative colitis; transdermal fentanyl patches for pain control; and medical device neuromodulation products (spinal cord stimulator and intrathecal drug delivery pump) used for pain relief and control of spasticity.

Expertise developed in drug sample preparation, medical information, medical communications, medical writing (late stage), drug safety (pharmacovigilance), literature searching, drug metabolism, toxicology, pharmacology, technical writing, product development and commercialization, research & development, technical service, academic teaching, and training laboratory staff in automation of drug sample preparation methodologies.

Highly regarded author and educator, with a body of work that includes a 600-page authoritative reference book on drug sample preparation, 20 publications in journals, 6 book chapters, dozens of technical application notes, instructions for use, and numerous product brochures for sales and marketing of 3M Empore® sample preparation products used in pharmaceutical bioanalytical laboratories; experienced presenter.

Proven record of scientific investigation to solve analytical problems related to medical conditions and diseases. Expertise in working with clients in scientific/medical research to solve problems through the use of new technologies, processes, and products. Proven ability to network with key opinion leaders and lead a team of professionals toward achievement of department goals.

EDUCATION

University of Kentucky College of Pharmacy, Lexington, KY

PH.D., TOXICOLOGY

Doctoral Thesis: "N-Methyl-2-Pyrrolidinone: Radiochemical Synthesis, Disposition and Metabolism in the Rat." *Advisor:* Dr. George A. Digenis, Division of Medicinal Chemistry, University of Kentucky.

Ohio Northern University, Ada, OH

B.S., PHARMACY

CHEMISTRY, MODIFIED MAJOR (TOOK ALL REQUIRED CHEMISTRY CLASSES EXCEPT PHYSICAL CHEMISTRY)

PROFESSIONAL EXPERIENCE

Wells Medical Research & Support Services, Orange County, CA
FOUNDER AND PRINCIPAL CONSULTANT

2013/September–Present

Currently providing independent contracted services to support the pharmaceutical, medical device and scientific research industries in the areas of: Medical Communications, Research and Product Development, Medical Information, Medical Affairs, Medical and Scientific Writing, Drug and Device Safety, Drug Sample Preparation, and Bioanalytical Method Development and Automation.

Medical Affairs, Medical Communications, and Medical Information activities are supported by acting as a Subject Matter Expert (SME) for a drug or product line in the areas of medical writing (late stage), drug safety (pharmacovigilance), literature searching, current awareness reports, staff training, performing as liaison to a call center, preparation of slide decks, manuscript preparation, custom response letters, core standard response documents, commercial and regulatory review of documents, call metrics, FAQs, and various projects such as preparing for trade shows and a new drug launch.

Most recent long-term contract (2016-present) has been with Takeda (legacy Shire), supporting pharmaceutical product launches and branded established products in Medical Communications (scientific slide decks, CMLR review, Congress planning and support, and literature management) for their programs in Gastrointestinal, Internal Medicine and Lysosomal Storage Diseases.

Support for bioanalytical drug sample preparation is provided in the form of on-site education and training of staff, teaching bioanalytical method development, implementing or enhancing automation capabilities, writing manuscripts, solving analytical challenges, developing new products, and managing technical service activities. <http://wellsmedicalresearch.com/>

ProPharma Group Pharmaceutical Call Center, St. Paul, MN **2006-2013/August**
ProPharma Group (formerly known as PROSAR) is an outsourced call center that provides medical information, the intake and recording of adverse events, and the processing of product complaints on behalf of several dozen small to mid-tier pharmaceutical companies.

SENIOR MANAGER, MEDICAL INFORMATION (2008-2013)

MANAGER, PHARMACOVIGILANCE AND MEDICAL INFORMATION (2006-2008)

Managed all aspects of medical information fulfillment including writing medical response letters, preparing publication alerts, creating monthly medical information call reports, managing bibliographic resources and reviewing cases for quality assurance. Performed intake and follow-up on adverse drug events. Conducted drug information training for call center staff. Served as Preceptor to Pharm.D. candidates on drug information rotations and as a Mentor to first-year pharmacy students.

- Subject Matter Expert for two dozen Pharma clients including Taro, Actavis, Spectrum, Westwood, Bioniche, Mutual, AR Scientific, and Horizon
- Performed as a dedicated resource and SME to BioMarin Pharmaceutical's Medical Affairs Department for six years.
- Trained as a global Subject Matter Expert on behalf of BioMarin for orphan drugs to treat phenylketonuria, LEMS, lysosomal storage disorders, enzyme replacement therapy and mucopolysaccharidosis, and was the call center liaison to BioMarin on a daily basis.
- Served as lead to rewrite 15 medical letters for KUVAN (and in an editorial role for all other programs' medical letters) and updated all supporting resources including knowledge base documents, call center training materials, and task descriptions for the KUVAN and NAGLAZYME programs on behalf of BioMarin.
- Wrote every single custom response for KUVAN and NAGLAZYME to health care professionals and the public, and collaborated with BioMarin staff around the globe to provide appropriate medical information responses.
- Maintained the global bibliographic database for BioMarin for marketed drug programs and R&D programs and searched the literature weekly, sending out current awareness searches to a global distribution list.
- Prepared slide decks and presentation materials for BioMarin use in training.

- Trained call center specialists on BioMarin marketed drugs and reviewed cases daily for compliance, accuracy and embedded adverse events; maintained call metrics and prepared monthly reports.
- Performed QA review of all BioMarin inquiries for drug safety and product complaints.
- Recognized as the in-house expert on researching the medical literature for adverse event reports (drugs and devices) and the preparation of reports for the FDA on medical device safety (Boston Scientific and Medicis as clients).
- Experienced in the pharmacovigilance of marketed drug products & medical devices; prepared MedWatch forms and MedDRA coding of adverse events for pharmaceutical clients
- Developed a five-week training program for senior Pharm.D. students as part of their externship in Drug Information.

Northwestern Health Sciences University, Bloomington, MN **2013–2018**

ADJUNCT LECTURER OF PHARMACOLOGY

Taught Pharmacology to chiropractic students (130 students fall term; 60 winter term).

University of Minnesota College of Pharmacy, Minneapolis, MN **2008–2015**

MENTOR

Volunteered as a mentor for first-year Pharmacy students, requiring a minimum of 10 hours per student. Program Administrator: Dr. Bruce Benson, University of Minnesota College of Pharmacy

Creighton University, Omaha, NE **2006-2013**

PHARMACY PRECEPTOR

Trained senior Pharm.D. students during a five-week Advanced Pharmacy Practice Experience (APPE) rotation in Drug Information. Designed and taught the curriculum, coached students, and provided written evaluations.

Rasmussen College, Bloomington, MN **2010-2011**

ADJUNCT FACULTY MEMBER

Instructed Pharmacology online for three quarters—two class sections per quarter.

Target Pharmacy, Minnetonka, MN **2004-2010**

STAFF PHARMACIST, FULL-TIME (2004-2006)

RELIEF PHARMACIST, EVENINGS (2002-2010)

With a weekly script volume of 2,800, this store was in the top ten of all Target pharmacies in the country. Developed, coached, and mentored pharmacy technicians, two of whom graduated from pharmacy school in 2012.

Sample Prep Solutions Company, St. Paul, MN **1999-2004**

Consulting business provided education and training services in bioanalytical drug sample preparation for LC-MS/MS analyses using high-throughput, automated techniques. Since fall of 2013, business became a part of the services offered by Wells Medical Research Services.

FOUNDER AND PRINCIPAL SCIENTIST

Founded a company to conduct on-site consulting, train scientists on high throughput drug sample preparation techniques, assist companies with product development, and teach workshops. Developed productive working relationships with key opinion leaders and influential scientists at pharmaceutical companies, contract research laboratories, and manufacturers of sample preparation products and analytical equipment.

- Wrote the first—and still the most highly regarded—authoritative reference book on drug sample preparation, receiving feedback from the editor that it was the best camera-ready book he had received in 20 years of book editing. *High Throughput Bioanalytical Sample Preparation: Methods and Automation Strategies*, Elsevier, 2003 (2nd Edition, in press, 2017).
- Became recognized worldwide as a SME on drug sample preparation; contributed to book chapters on the subject; consulted with drug companies and contract research laboratories.

- Collaborated with a client to develop a commercial extraction kit used to concentrate trace chemicals from 50-gallon liquid drums to identify bioterrorism threats during Iraq War.

Supervalu Corporation, Cub Pharmacy, Minneapolis, MN **1998–2015**
RELIEF PHARMACIST, PART-TIME

Shoppers North Drug, North Saint Paul, MN **1989-1996**
RELIEF PHARMACIST, PART-TIME

3M Company, New Products Department, St. Paul, MN **1990-1998**
TECHNICAL SERVICE SUPERVISOR (1996-1998)
TECHNICAL SERVICE SPECIALIST (1993-1996)
SENIOR PRODUCT DEVELOPMENT BIOCHEMIST (1990-1993)

Served as the primary scientific and information support resource for Empore® sample preparation products marketed to pharmaceutical research scientists. Responded to telephone calls, logged customer demographics and follow up, conducted on-site customer visits, created the very first website for the program, and developed applications in-house with customers. Managed cross-functional business development team and evaluated new business opportunities.

- Played a key role in developing and commercializing a new drug sample preparation technology, in collaboration with scientists and engineers, and introducing more than 12 product line extensions and helping the business grow by \$12M annually.
- Spearheaded the development and commercialization of a 96-well plate product for pharmaceutical bioanalytical customers, racing against a European company to be the first to successfully launch such a product. Received the 3M *Circle of Technical Excellence* award for efforts on the project, which resulted in the division's highest profile program with financially successful product line extensions.
- Served as global SME on 3M Empore technology and trained 3M employees and distributors worldwide.

3M Pharmaceuticals, Drug Metabolism Department, St. Paul, MN **1986-1990**
SENIOR BIOCHEMICAL PHARMACOLOGIST

- Participated on the project development team for the immunomodulator antiviral drug ALDARA from a drug metabolism perspective.
- Researched new technologies and instrumentation in the drug metabolism field and convinced management to adopt the new techniques, which advanced the department's capabilities.

Wells Professional Pharmacy, Bellbrook, OH **1982-1986**
RELIEF PHARMACIST

PROFESSIONAL LICENSURE & AFFILIATIONS

Registered Pharmacist, Ohio and Minnesota
American Association of Pharmaceutical Scientists (AAPS)
American Society for Mass Spectrometry (ASMS)
Drug Information Association (DIA)
Society for Laboratory Automation (SLA)

PATENT

U.S. Patent No. 5,472,600, "Gradient Density Prefilters," Peter Ellefson and David Wells, issued December 5, 1995.

Invited Presentations:

"Research in Medicinal Chemistry," Arts and Sciences Alumni Speaker Series, Ohio Northern University, Ada, Ohio, October 1989.

"Innovations Using Empore™ Particle-Loaded Membranes for Drug Extraction," Eastern Analytical Symposium, Solid-Phase Extraction Workshop, Somerset, New Jersey, November 1994.

"Sample Preparation Techniques: Clinical Applications," Minnesota Chromatography Forum, Short Course, Minneapolis, Minnesota, April 1996.

"Sample Preparation Methodologies and Bioanalytical Trends in the Pharmaceutical Industry," Graduate Program in Pharmaceutics, Seminar Series, University of Minnesota College of Pharmacy, Minneapolis, Minnesota, April 1997.

"Advances in Sample Preparation Techniques for High Throughput Pharmaceutical Bioanalysis," Eighth International Symposium on Pharmaceutical and Biomedical Analysis, Orlando, Florida, May 1997.

"96-Well Solid-Phase Extraction Techniques and Applications," Chromatography Symposium, Sponsored by Johnson & Johnson Companies, Princeton, New Jersey, September 1997.

"96-Well Solid-Phase Extraction Techniques for High Throughput Pharmaceutical Bioanalysis," Finnigan User Group Meeting, Philadelphia, Pennsylvania, November 1997.

"Recent Advances in Bioanalytical Sample Preparation Techniques using 96-Well Plates," 38th Annual Eastern Analytical Symposium, Somerset, New Jersey, November 1999.

"New Formats and Accessories for High Throughput Assays Using 96-Well Plates," SamPrep 5th International Conference on Sample Preparation, Las Vegas, Nevada, January 2000.

"Advances in Bioanalytical Sample Preparation Techniques in the Pharmaceutical Industry," Hamline University, St. Paul, Minnesota, March 2000.

"Solid-Phase Extraction Workshop," Minnesota Chromatography Forum Spring Symposium, 2-Day Short Course, Minneapolis, Minnesota, May 2004.

"Solid-Phase Extraction Workshop," Minnesota Chromatography Forum Spring Symposium, 2-Day Short Course, Minneapolis, Minnesota, May 2005.

Submitted Abstracts and Presentations:
